

Wakefield College Student's Careers Entitlement

wakefieldcollege

Wakefield College is committed to ensuring each student is able to make informed career decisions. We are dedicated to each student understanding the full range of opportunities available to them upon completion of their Studies. This is supported through learning from employers about work and the skills that are valued in the workplace and by having first-hand experience of the workplace.

To help meet this commitment we have developed the following Student Careers Entitlement -

What you can expect from us

- A comprehensive Careers programme
 - Guidance supported by labour market information
- Support for your individual career goals
 - A relevant curriculum aligned to prepare you for employment
- Experiences with employers and employees
 - Experiences of the wider world of work
 - Experiences relating to progressing to further and higher education
- Personal tailored advice

What does this look like

- Impartial information and professional advice from our Careers service within Student Central
- A College calendar of career focussed activities including:
 - Careers events / Progression activity
 - CV Workshop & mock interviews / Mentoring
 - Employer delivered workshops
 - Business and enterprise activity & competitions
- Curriculum planned to progression opportunities
- Course delivery aligned to employment skills, knowledge and behaviours
 - Fully supported UCAS process
- Individual tutorials mapped to your learning and career journey
- Online resources accessible through Moodle
- Transition programme for all Level 3 students
- Tailored tutorials to labour market information
- Employment skills and behaviours assessed for starting points
 - Target setting relating to your career goals
 - Frequent ILPs with focus on your career aspirations
 - Visits to workplace
 - Guest speakers from industry
 - Live curriculum projects
- Work placement opportunities with highly regarded employers
- Support with job applications, interview practice and CV development
 - Realistic Working Environments
