Step into Schneider Electric 2020 Mentoring Programme for Year 13 Girls Studying STEM Subjects!

Who we are:

At Schneider, we believe access to energy is a basic human right. We empower all to make the most of their energy and resources, ensuring Life Is On everywhere, for everyone, at every moment. We provide energy and automation digital solutions for efficiency and sustainability. We combine world-leading energy technologies, real-time automation, software and services into integrated solutions for Homes, Buildings, Data Centres, Infrastructure and Industries.

Aim of the programme:

To bring students together with female role models who are actively working in STEM careers across Schneider Electric. In detail, the mentors will help dispel the myth that these are male-only professions, highlighting how STEM subjects can open up a host of rewarding career opportunities where females can really make a difference.

- To give girls a sense of belonging in the STEM community.
- To help girls build confidence in their strengths and abilities.
- To empower girls and motivate them to succeed.

The programme:

5-month Programme - February to June 2020

One to one mentoring - one-hour meeting once a month to focus on a personal action plan, which includes STEM career choices, interview techniques, CV's and applications.

- Work experience at one of our local offices to network and job shadow.
- Site visits to truly experience the operations of Schneider Electric.
- Open evenings - an opportunity to bring parents/carers, students, tutors and employer together!

Want to apply? Please complete the following application form.
